At Allstate, we believe sustainable businesses do more than make a profit, they make the world a better place. As a purpose-driven company, we help customers realize their hopes and dreams by providing the best products and services to protect them from life’s uncertainties and prepare them for the future.

Allstate’s Sustainability Report is about more than just our environmental impact. It addresses ethics and integrity, workforce and inclusive diversity, responsible investment, community impacts and more. These elements have been part of the report since its inception in 2003.
